Vertical Multi-Stage Centrifugal Pumps

High efficiency standard series, ISO 100 bearings and cast-iron (Ductile) (DIN) standard cast iron pump body, high efficiency, low noise, low vibration, high reliability and long life span. The pump body is made of high quality cast iron, which is resistant to corrosion and wear.

Reasonable structure design and use of the pump assembly, together with the use of high quality materials, ensure the pump has a long service life and low maintenance cost.

Being produced by the most advanced manufacturing technology, the pump has a high efficiency and low noise level. The pump is suitable for use in various applications, such as in the power, water supply and irrigation industries.

The pump is designed to be used in a wide range of applications, such as in the power, water supply and irrigation industries. The pump is suitable for use in various applications, such as in the power, water supply and irrigation industries.
