## Service Requirement

### B1. Service Requirement Information

Registration/licence with authorised body Yes

Staff training/ competency requirement

All staff are trained in scheduled waste handling, storage, and transportation in compliance with DOE guidelines. Regular training sessions are conducted to maintain competency in waste management operations, including safety and emergency response. Records of training and competency assessments are maintained and updated.

Operation & maintenance	Standard operating procedures (SOPs) are implemented for waste collection, segregation, treatment, storage, and disposal. Preventive maintenance schedules are followed for all waste handling equipment to ensure efficiency and safety. Continuous monitoring is carried out to comply with environmental and regulatory requirements.
Demonstration of Energy Efficiency & Conservation	Adoption of energy-efficient machinery and vehicles in daily operations. Implementation of route optimization and consolidated collection trips to reduce fuel consumption. Regular monitoring of energy usage with initiatives to minimize wastage and promote conservation.
Demonstration of Waste management	End-to-end waste management process in compliance with DOE standards, covering collection, segregation, treatment, recycling, and final disposal. Clear waste tracking and reporting system to ensure accountability. Continuous improvement initiatives to enhance waste diversion from landfills and promote recycling/recovery.
