GUIDELINES FOR THE REGISTRATION OF MyHIJAU MARK PRODUCT ("Products Guideline")

1.0 INTRODUCTION

- 1.1 MyHIJAU Mark refers to a recognition programme overseen by GreenTech Malaysia for products adopting Green Technology. Through this programme, a product can be registered as a MyHIJAU Mark Product, if it has complied with the criteria, and has been verified and approved by GreenTech Malaysia.
- 1.2 To qualify for registration, the Applicant and the product must meet the criteria as outlined under *items 3.1* and *3.2* of this Guideline.
- 1.3 A product registered as a MyHIJAU Mark Product is awarded with the MyHIJAU Mark Label and the MyHIJAU Mark Certificate. The MyHIJAU Mark Certificate shall be valid from the date of approval until the expiry of the validity of the Green Label Certification or the Performance Standard Compliance subject to the maximum validity period of three (3) years from the date certified, where applicable.
- 1.4 The MyHIJAU Mark Label may be printed on the product which has been successfully registered as a MyHIJAU Mark Product as a form of assurance that the product is environmentally friendly. A product labelled with the MyHIJAU Mark will assist consumer's purchasing decisions in contributing to a greener environment.
- 1.5 Products which are successfully registered will be listed, together with the name of the registering company, in the MyHIJAU Directory, accessible at www.myhijau.my. The MyHIJAU Directory provides detailed information of a wide range of green products and services available for reference.
- 1.6 This Guideline is made available to prospective Applicant, accessible at www.myhijau.my. GreenTech Malaysia reserves the exclusive right to revise

and/or amend the content of this Guideline from time to time without prior notice.

3.0 ELIGIBILITY CRITERIA

3.1 Eligibility Criteria for Applicant

3.1.1 An Applicant must meet the following criteria:

- a) a business registered under the Registration of Businesses Act 1956 (Laws of Malaysia Act 197) or a company incorporated in Malaysia pursuant to the Companies Act 1965 (Laws of Malaysia Act 125) that manufactures or supplies product(s) adopting Green Technology (including equipment and systems) in Malaysia;
- b) in the case of a Supplier, such Supplier must be the authorised Supplier appointed by the product manufacturer; and
- c) must not be wound-up and/or liquidated.

3.2 Eligibility Criteria for Product

3.2.1 In order for a product adopting Green Technology (including equipment and systems) to qualify for registration as a MyHIJAU Mark Product, such a product must have the following criteria:

- a) minimise the degradation to the environment, or reduce greenhouse gas emissions;
- b) promote health and/or improvement of the environment; and
- c) conserve the use of energy, water and/or other forms of natural resources, or promote the use of renewable energy, or is a recyclable material.

3.2.2 Only product(s) with Green Label Certification or Performance Standard Compliance issued by Verification Bodies recognised by GreenTech Malaysia are eligible to apply.

GreenTech Malaysia currently recognises either:

- a) Any certification schemes of ISO 14024 Type I Eco Labels, including:
 - SIRIM Eco Labelling Scheme; or
 - Any other certification schemes registered with Global Ecolabelling Network (GEN).

- b) Any certification schemes of ISO 14025 Type III Eco Labels, including:
 - SIRIM Carbon Footprint Labelling Scheme; or
 - Any other certification schemes that comply with this international standard.

- c) Other ISO 14024 Type I-like Voluntary Sustainable Scheme (VSS) including:
 - Energy efficiency certification schemes e.g. Energy Efficiency Rating & Labelling Scheme by Suruhanjaya Tenaga (ST);

 - Sustainable timber certification schemes e.g. Malaysian Timber Certification Scheme (MTCS)
 - Others list refer to MyHIJAU Directory

For the list of recognised Verification Bodies please refer to MyHIJAU Directory.

- d) Any Performance Standard Compliance for the following products, including:
 - Solar Photovoltaic Panels
 - Wind Turbines
 - Heat Pumps (Air Source and Ground Source)

- Micro Combined Heat and Power (CHP) Systems
- Electric Vehicles
- Insulation Materials

Please refer to MyHIJAU Directory for a complete list of products that may be added from time to time.

3.2.3 Only certification/labelling schemes recognised by GreenTech Malaysia will be accepted. Standards, requirements and limitations which are lower or less stringent than existing standards, requirements and limitations adopted in Malaysia will not be eligible for registration.

(Note):

- a) Certified products by foreign Verification Bodies that are recognised by Standards Malaysia, Global Ecolabelling Network (GEN) or Accreditation Body of the respective country may be accepted if the **product criteria or certification is unavailable** in Malaysia.
- b) Products with a foreign certification/labelling scheme shall be evaluated **against standards, requirements and limitations** with Malaysian certification/labelling scheme (if available). Applicant must ensure that the Verification Body is accredited by the Accreditation Body of that respective country.
- c) Test reports of Performance Standard Compliance may be accepted for products if there is **unavailable green or environmental certification/labelling scheme** in Malaysia. The product(s) should be tested on the performance standard at an accredited testing laboratory by Standards Malaysia or the Accreditation Body of respective country.
